Who We Are

WPG Americas Inc. is a member of WPG Holdings, a worldwide distributor of semiconductors passive, electromechanical and display products. From design to delivery, we harness the latest innovations from industry leaders and connect them with our leading-edge design engineers and supply chain services, offering a complete solution in support of your ideas.

KOCAP Polymer Capacitors

Organic Polymer Capacitors (KO-CAP®) deliver long life and stable performance

The KEMET Organic Capacitor (KO-CAP) is a solid electrolytic capacitor with a conductive polymer cathode capable of delivering very low ESR and improved capacitance retention at high frequencies. KO-CAP combines the low ESR of multilayer ceramic, the high capacitance of aluminum electrolytic and the volumetric efficiency of tantalum into a single surface mount package. Unlike liquid electrolyte-based capacitors, KO-CAP has a very long operational life and high ripple current capabilities.

Electronic Components
KEMET
CHARGED®

To find out more about KEMET KO-CAP® Polymer Capacitors as well as their full product line, visit www.wpgamericas.com/kemet or contact a WPGA specialist today!
