IBM

Jumpstart your IoT Applications with the EIS-DK10 Starter Kit!

Advantech, a leader of the global industrial computing market provides trusted innovative embedded and automation products and solutions. The EIS-DK10 starter kit offers a complete solution for IoT data collection and intelligence creation from end device, edge network, to the cloud, and provides clear system architecture based on a specific user case.

Enabling an Intelligent Planet

NOW \$199

Limited Time Offer: Lattice Embedded Vision Development Kit Available for \$199

The ultimate modular Video Interface Platform (VIP) for high performance, energy-efficient embedded video imaging processing applications. Featuring dual camera input, CrossLink bridging FPGA, ECP5 processor board and HDMI output. Supported by Helion Vision's ISP turn-key solution.

Quickly Enable Connectivity to Any Product Design With Ease

Telit's xE910 family delivers the most comprehensive set of connectivity features in a compact 28.2 x 28.2mm LGA form factor. An excellent solution for fixed and mobile applications.

Quickly design and launch your cellular-enabled products anywhere in the world with one reference design, enabled with the xE910.
